

What could be the awesomeness value of each teacher?

is Mr. Arthur.

is Mr. Song

is Ms. Chan

Rating of each teachers' awesomeness level (these are unbiased equations which are completely objective and true for all time).

1. Show what each teacher's awesomeness level is given the above equations (try to use integers in one of your solutions)
2. Show how you can use the strategies you used to solve these equations. $2 + x = 15$ and $4x - 3 = 9$

What is the value of  ?
